PSTN cheat sheet

- CUCM: SIP trunk, MGCP, H.323, or ICT. CUBE is a B2BUA in front of a carrier you keep.
- Webex Calling: Calling Plan, or local gateway. Not both for one location.
- Teams: Calling Plan, Operator Connect, or Direct Routing.
- Bring your own carrier: your contract, your SBC, their call control.

Sources: Webex Calling help, Direct Routing plan, RFC 3261.
