CHEAT CODE

Glossary cheat sheet

- CSS — ordered partitions. Line, then device.
- Dial-peer 0 — no inbound peer matched.
- Early offer — SDP in INVITE. Delayed offer — SDP in the 200.
- B2BUA — two legs. Read both.
- ELIN — callback identity for the site that called emergency services.
- Call type — UCCE report bucket selected by the dialed number.
- EF 46 — voice RTP mark. Still needs a priority queue.

Terms used in this lab. Port numbers still come from the CUCM 15 port chapter.

Independent educational project, not affiliated with vendors. Trademarks belong to their owners. MIT code, CC BY-NC-SA content.
