Emergency calling note

Study notes, not legal advice and not an emergency plan.
The FCC MLTS page describes direct 911 dialing, notification, and dispatchable location for covered US systems.
Cisco Emergency Responder maps a switch port to an ERL and an ELIN. Confirm Release 15 before you build.
A PSAP callback is a separate call toward that ELIN.
Rules and carriers outside the pages this lab opened stay on a confirm row.

Independent free learning-only student project. Trademarks belong to their owners. Not affiliated or endorsed. Contact: https://cyphermonkeylabs.com/#contact. Nothing is sold.

Sources and go deeper

Opened 2026-10. A row marked confirm has no link, because that page was not verified.
